## Presenter Biographies

**Skye Barbic, PhD, OT** is the Director of Research at Foundry in British Columbia, Occupational Therapist in British Columbia, Assistant Professor at the University of British Columbia, a Scientist at the Centre for Health Evaluation and Outcome Sciences, and a member of the Federal Ministerial Advisory Council on Mental Health. Dr. Barbic's research aims to improve health and social services for young people through youth engagement, person-centred measurement, and policy reform.

**Kyle Dewsnap** is an MA student at UBC in Measurement, Evaluation, and Research Methods. He holds a BSc in Cognitive Science from McGill University, where he wrote his honours thesis on the concept of validity and how it applies to psychometric clinical outcome assessments. Under the supervision of Dr. Bruno Zumbo, his current research focusses on evaluating the assumptions that underly commonly used psychometric models and procedures.

**Eran Tal, PhD** is Canada Research Chair in Data Ethics and an Assistant Professor of Philosophy at McGill University. He specializes in philosophy of science, philosophy of measurement, and the ethical dimensions of data collection and use in the sciences.

**Danielle Celone** is a fifth-year undergraduate in Linguistics and Philosophy at McGill University. Her interests include philosophy of mind, logic, and philosophy of language.

**Sebastian Rodriguez Duque** is a PhD student in Philosophy at McGill University. His research interests lie at the intersection of empirical issues in the philosophy of mind, philosophy of science, agency, and ethics.

**Sophie Osiecki** holds degrees from the University of Cambridge (MPhil) and University College London (UCL) (BSc). She is a PhD student at McGill University working on issues in the philosophy of measurement.

**Darius Valevicius** is a Master's student in neuroscience at McGill University. His interests include the philosophy and treatment of mental health, as well as epistemology and the philosophy of science.
